JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Smallpox in Naples.—During the week ended February 14 there were 7 cases of smallpox and 1 death reported at the health office of the city of Naples.

Status of smallpox in Italy.—Week ended February 14.

Provinces: Spoleto (Perugia), 2; Viareggio (Lucca), 2; Verona, 1; Venice, 1; Pescara (Aquila), 1.

JAPAN.

Report from Yokohama—Examination of emigrants.

Passed Assistant Surgeon Cumming reports:

Number of emigrants per steamship *Korea* recommended February 10 for rejection: For Honolulu, 5; for San Francisco, 1.

Rejections were for trachoma.

Report from Nagasaki—Examination of emigrants.

Sanitary Inspector Bowie reports:

Number of emigrants per steamship *Korea* February 4 for Honolulu, recommended for rejection, 3.

PHILIPPINE ISLANDS.

Reports from Manila—Smallpox—Status of cholera in the provinces Inspection of vessels.

Chief Quarantine Officer McClintic reports, January 20:

Week ended January 16. The only quarantinable disease reported for the city of Manila was 1 case with 1 death from smallpox. There were no cases of cholera reported during the week. Only a few cases of cholera were reported from the pueblos in the Mariquina Valley, adjacent to Manila. Energetic measures have been put in operation there by the bureau of health. The carnival, which begins on February 2, will bring together a large crowd of all classes of people.

During the week the following cases and deaths of cholera were reported as having occurred in the provinces:

Province.	Cases.	Deaths.	Province.	Cases.	Deaths.
Rizal.....	16	15	Laguna.....	5	3
Bohol.....	13	13	Samar.....	8	4
Cebu.....	5	4	Ilocos Norte.....	4	4
Capiz.....	148	85	Sorsogon.....	20	9
Iloilo.....	1	1	Cagayan.....	5	3
Pampanga.....	7	6			
Antique.....	2	3	Total.....	245	159
Negros Occidental.....	11	9			

It will be observed that most of the cases in the provinces are reported from Capiz, which is one of the provinces in which the disease first appeared, and where it has continued, without moderation, in epidemic form.
